

# **Poverty Alleviation Fund (PAF)**

## **Program Implementation Status**

**(as of 13 March 2008)**

Poverty Alleviation Fund (PAF) is implementing targeted demand-driven community based program directly supporting the third pillar of Tenth Plan/ Poverty Reduction Strategy Paper-PRSP of the Government of Nepal (GoN), i.e. targeted program (Annex-I: PAF program at a glance). Presently PAF is implementing its program in 45 districts. Initially it selected six districts viz. Darchula, Mugu, Pyuthan, Kapilbastu, Ramechhap and Siraha for programme implementation. From the FY 2062/63 (2005/06 AD), 19 additional districts are selected as PAF special programme districts (Achham, Baitadi, Bajhang, Bajura, Dadeldhura, Dailekh, Dolpa, Doti, Humla, Jajarkot, Jumla, Kalikot, Mahottari, Rasuwa, Rautahat, Rolpa, Rukum, Sarlahi and Sindhuli). With this, PAF now covers all the 25 districts from Group-C categorized as most deprived districts by CBS/NPC based on 28 poverty related social-economic indicators (Annex-IX). Besides working in these project districts, PAF is implementing innovative programme in other 20 districts as well under the special innovative window programme to capture replicable innovative initiatives to reach to the poor. The current PAF program districts are shown in Annex-II.

### **Demand-Driven Community Proposal and Direct Funding**

Till date 6,838 community organizations (COs) are registered in PAF 2,706 in Initial 6 Districts, 3,869 in Additional 19 Districts and rest 263 are through Innovative Window Programme Districts). Accordingly, community proposals are also prepared with participatory planning process. Out of total registrations, PAF made agreement with 6,137 COs (2,535 are in Initial 6 Districts, 3,348 in Additional 19 Districts and rest 254 in Innovative Window Programme Districts) and community are implementing the sub-project (The district wise details on CO registration and agreement are shown in Annex-V). Based on community demand, several different activities related to Income Generation and Infrastructure sub-projects are proposed and included in the program implementation. Income generation activities are related to agriculture, livestock, cottage industries, trade and services. Similarly, infrastructure are related to micro-irrigation, link road, culvert/bridges, micro-hydro, water supply, sanitation, school and health post buildings. Program activities, in general, being implemented by the community are listed in Annex-III.

The agreement made with 6,137 COs amounts to NRs. 2,767,591,285 and it is in the process of disbursement to Community Accounts. Till date NRs 2,546,471,278 is disbursed to community non-operating account and NRs 1,808,371,065 is disbursed to community operating account. The community fund flow modality is shown in Annex-IV and details on CO agreement and disbursement status is shown in Annex-V.

In FY 2061/62 (2004/05), the agreements were made with 595 COs amounting to NRs. 240,197,944, in the FY 2062/63 (2005/06), the agreement was made with 1,070 additional COs amounting to NRs 526,156,592, in FY 2063/64 (2006/07), the agreement is made with 3,311 additional COs amounting to Rs. 1,347,157,549 and in this FY 2064/65 (2007/08), the agreement is made with 1,161 additional COs amounting to Rs. 650,396,831 till date.

The community sub projects are in different stages of implementation. Second level of demand and proposals are also started receiving upon completion of first sub projects. A list of sub-projects completed and Physical achievements of sub-projects are provided in Annex-VI.

Additionally, PAF considered financing 12 out of 20 winning innovative proposals of Nepal Development Market Place (NDM)-World Bank. Agreements are made with those 12 POs that amounts NRs. 14,758,416 to work in 22 VDC of Bajura, Chitwan, Dolakha, Kailali, Kanchanpur, Kathmandu, Myagdi, Morang, Panchthar, Parsa, Saptari, and Syangja districts serving about 8,634 poor households. Till date, NRs. 14,298,492 is disbursed and implementation is in different stages.

Furhter PAF is monitoring the World Bank financed remaining 8 NDM projects in Dang, Khotang and Tanahun districts.

## Community Cost Sharing

PAF is investing 83% of the total sub-project cost. Community sharing is 15% (7% in Cash and 8% in Kind) of the total sub-project costs whereas other organizations mainly VDC/DDC are sharing 2% in total sub-project cost. In Income Generating sub projects, community is sharing 9% in cash and 3% in kind whereas in Infrastructure sub projects, it is 1% in cash and 24% in kind.

Out of the total PAF investment, 81% is in Income Generating sub-projects and 19% is in Infrastructure sub-projects. The sub-project activities undertaken are shown in Annex-III.

## Partner Organization Supporting Community

The objectives of PAF to select Partner Organizations (POs) are to facilitate Community Organisations (COs). The facilitation shall be in organising COs, their capacity development, planning activities, carryout detailed survey design & estimates, proposal submission, as well as technical assistance and monitoring during implementation. As such, 221 Partner Organizations (POs) are working with communities (68 for Initial 6 Districts, 129 for Additional 19 Districts, 12 for Innovative Window program and 12 for Innovative NDM-World Bank Programme). Pos are dropped due to their poor performance. Till date POs facilitated in total 796 VDCs (271 in Initial 6 Districts, 445 in Additional 19 Districts, 58 in Innovative Window Programme Districts and 22 in NDM-World Bank Programmes) and Community Organizations (COs) are working in those VDCs. Till date 192,969 poor households in those VDCs are served. A detailed district wise PO, COs and coverage are shown in *Annex-VII*.

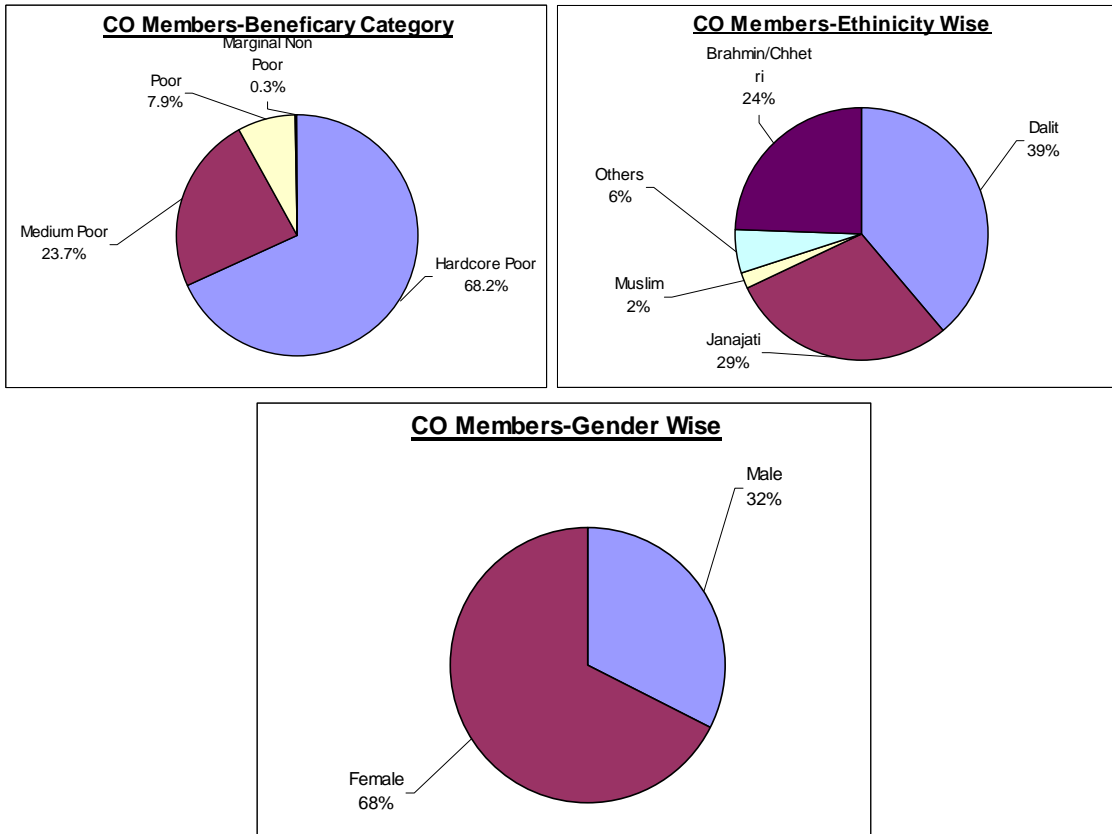

## Reach out to Excluded Poor Community Beneficiaries

PAF has taken the strategy to support the idea that poor community should be organized themselves to prepare, implement and manage their program and they should be in the driving seat, with decision making authorities. A social inclusion strategy to reach out to the poor specifically poor women, dalit and janjati are taken (*Annex-VIII*). Participatory community well- being ranking process identified the poor community members as primary beneficiaries at the settlement level. They are organized into community organization to plan, implement and manage the sub-projects.

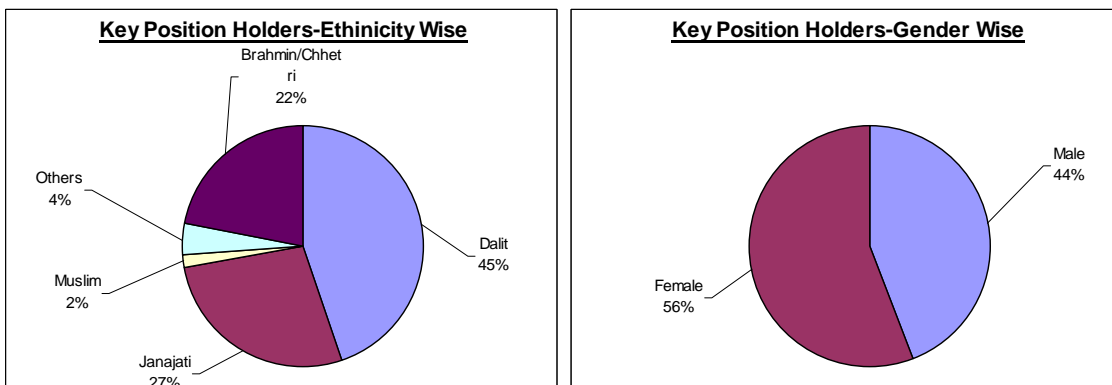

Among beneficiaries members in Community Organizations (COs), 68.2% members falls under hardcore poor category (food sufficiency less than 3 months among criteria fix by community), 23.7%

members falls under medium poor category (food sufficiency more than 3 months but less than 6 months among criteria set by the community), 7.9% members falls under poor category (food sufficiency more than 6 months but less than a year among criteria set by the community) and 0.3% members falls under marginal Non-poor Category.

Likewise, CO member households constitutes 39% dalit, 29% janajati, 2% Muslim, 24% Brahmin/Chhetri and 6% other ethnicity. Gender wise, 68% are female members in Community Organizations (COs).

Similarly, the key position holders in the community organisation such as President, Treasurer, Secretary constitutes, 45% Dalit, 27% Janajati, and 2% Muslim and 23% Brahman/Chhetri, and 4% other ethnicity. Gender wise, 56% are female key position holders in Community Organizations (COs).

When percentage beneficiary of PAF by ethnicity is compared with district percentage ethnicity composition as shown in the graph below it is clear that PAF is focusing on socially excluded group such as Dalit and Janajati. In an overall, PAF till now benefited 28.83% of poor households in 25 districts.

## Budget Expenditure

The total expenditure in FY 2060/61 (2003-04), FY 2061/62 (2004-05), FY 2062/63 (2005-06) and FY 2063/64 (2006-07) were NRs.5,781,379, NRs. 247,322,606, NRs. 493,505,927 and NRs 1,210,296,385 respectively. Last FY 2063/64 (2006-07), the expenditure is NRs 1,210,296,385 which is 96.51% of total budget of NRs 1,254,070,000.00. Total expenditure of PAF till FY 2063/64 is NRs. 1,956,906,297.

Out of the total PAF expenditure of NRs. 1,956,906,297 till FY 2063/64 (2006-07), 93.05% was in Program Implementation through CO & PO (CO 79.92% and PO 13.13%), 2.46% in Monitoring, Training, Studies and Other Program Support, 1.26% in capital investment for PAF and 3.23% in PAF operation/ recurrent cost. Of the total expenditure 94.6% was from the World Bank IDA Grant and rest 5.4% from GoN source.

In this FY 2064/65 (2007-08), the expenditure till date is NRs 1,189,447,226.73 which is 67.17 % of total budget of NRs 1,770,723,000.

Currently the PAF Project is funded by IDA Grant with US\$ 40.0 M for four years till February 2009 (This constitutes initial US\$ 15.0 M and additional US\$ 25.0 M). IDA grant of US\$ 100.0 M and IFAD Grant of US\$ 4.0 M are in pipeline.

## Lessons and Challenges

There is a high demand for the programme as the sub-projects originate at grass-root levels. Communities have demonstrated their keen interest to undertake the programme and make necessary contributions. The current challenge is to make a trade-off between rapid implementation and institution building enhancing the technical capability of the community organizations. In view of the wide varieties of activities undertaken within the sub-project, the challenges faced for sustainability of the sub-projects are:

- Linkage with market for sustaining income-generating activities.
- Providing appropriate technology support for different activities including linkages with existing service structure
- Availing Insurance Safety-Net particularly for livestock
- Exploring an alternative to livestock based activities for landless poor
- Building Community Capacity to Manage Revolving Fund and Operate the Sub-Projects
- Raise awareness of community through functional literacy

While working towards above challenges, it is inevitable to work with diversified groups of poor communities supporting each other and network for linkages and collaboration with other programmes and line agencies to support communities in different areas of strength of these programmes. Further, legal institutionalization of Community Organizations through coalition or formation of functional co-operatives and establishment of strong linkages with VDC/ DDC are also important for sustainability and long-term support to these community groups.

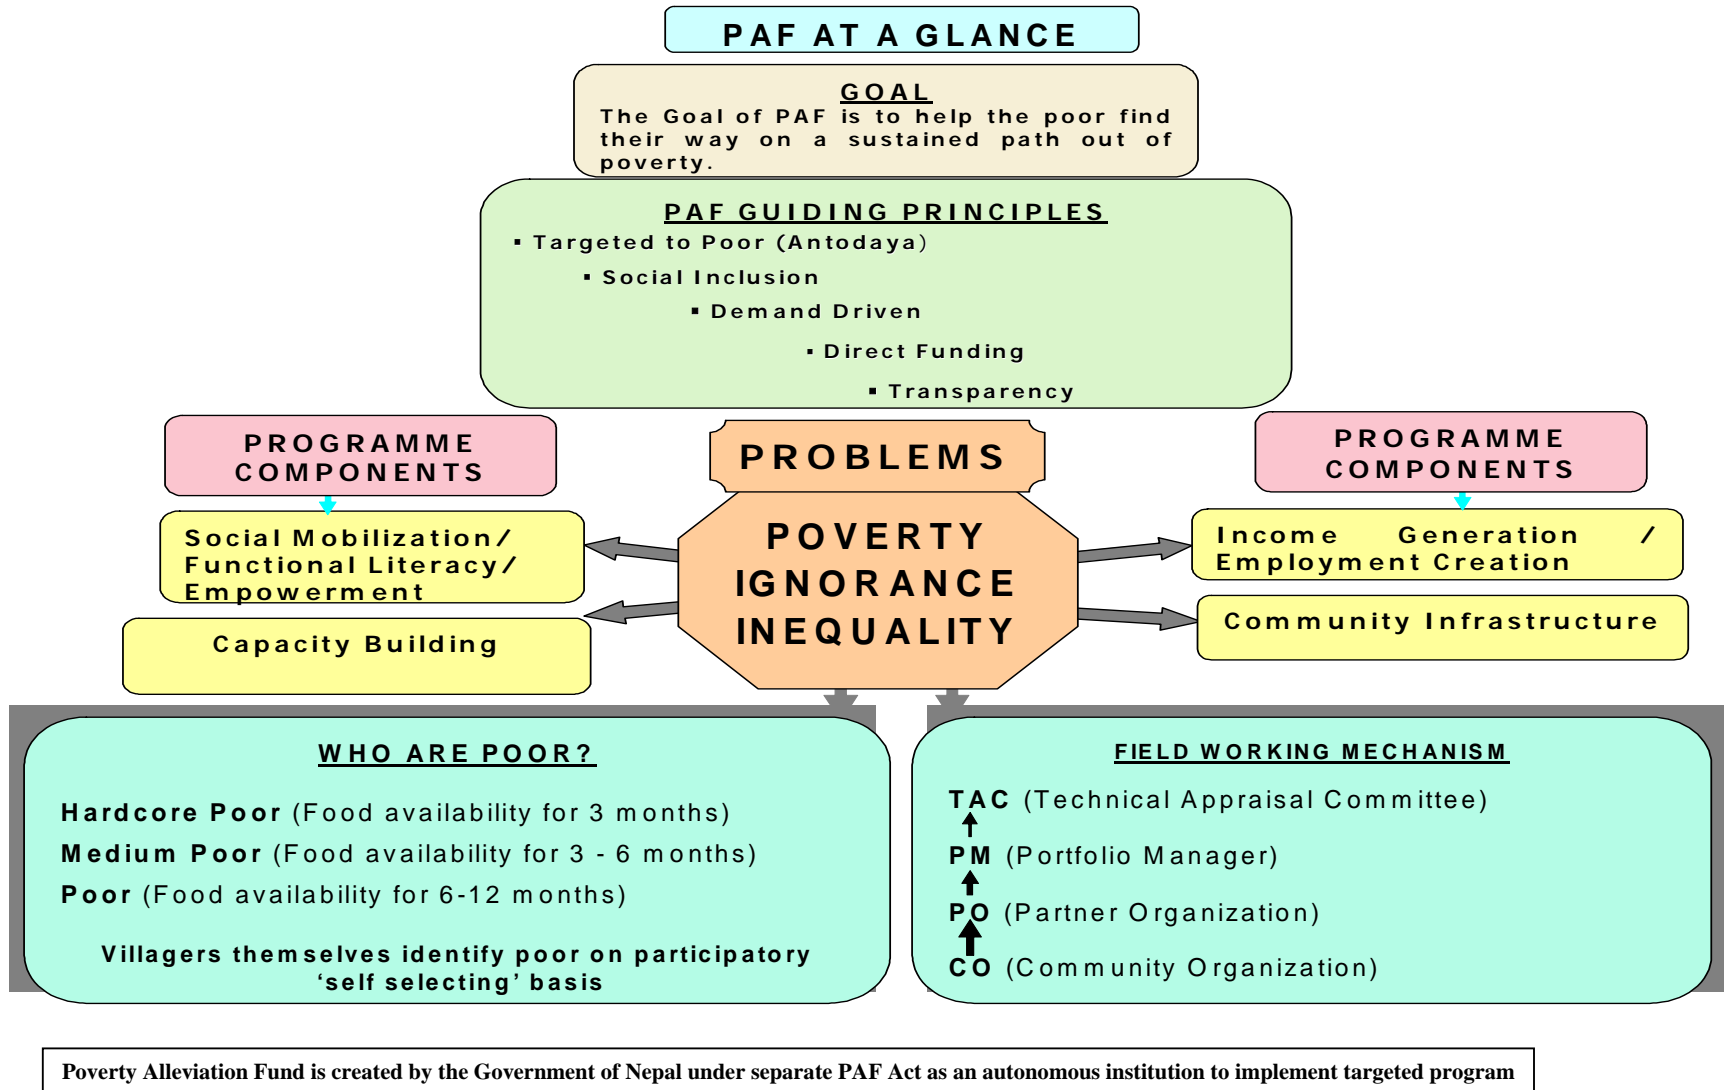

PAF is working with its exit strategy focusing on its strategic thrust to enable community to go to sustained path to get out of poverty within a stipulated 5-6 years of time.

Monitoring, Research and Development needs to be strengthened further to support the implementation including capacity building of main actors i.e. CO, PO, Local Bodies and PAF.

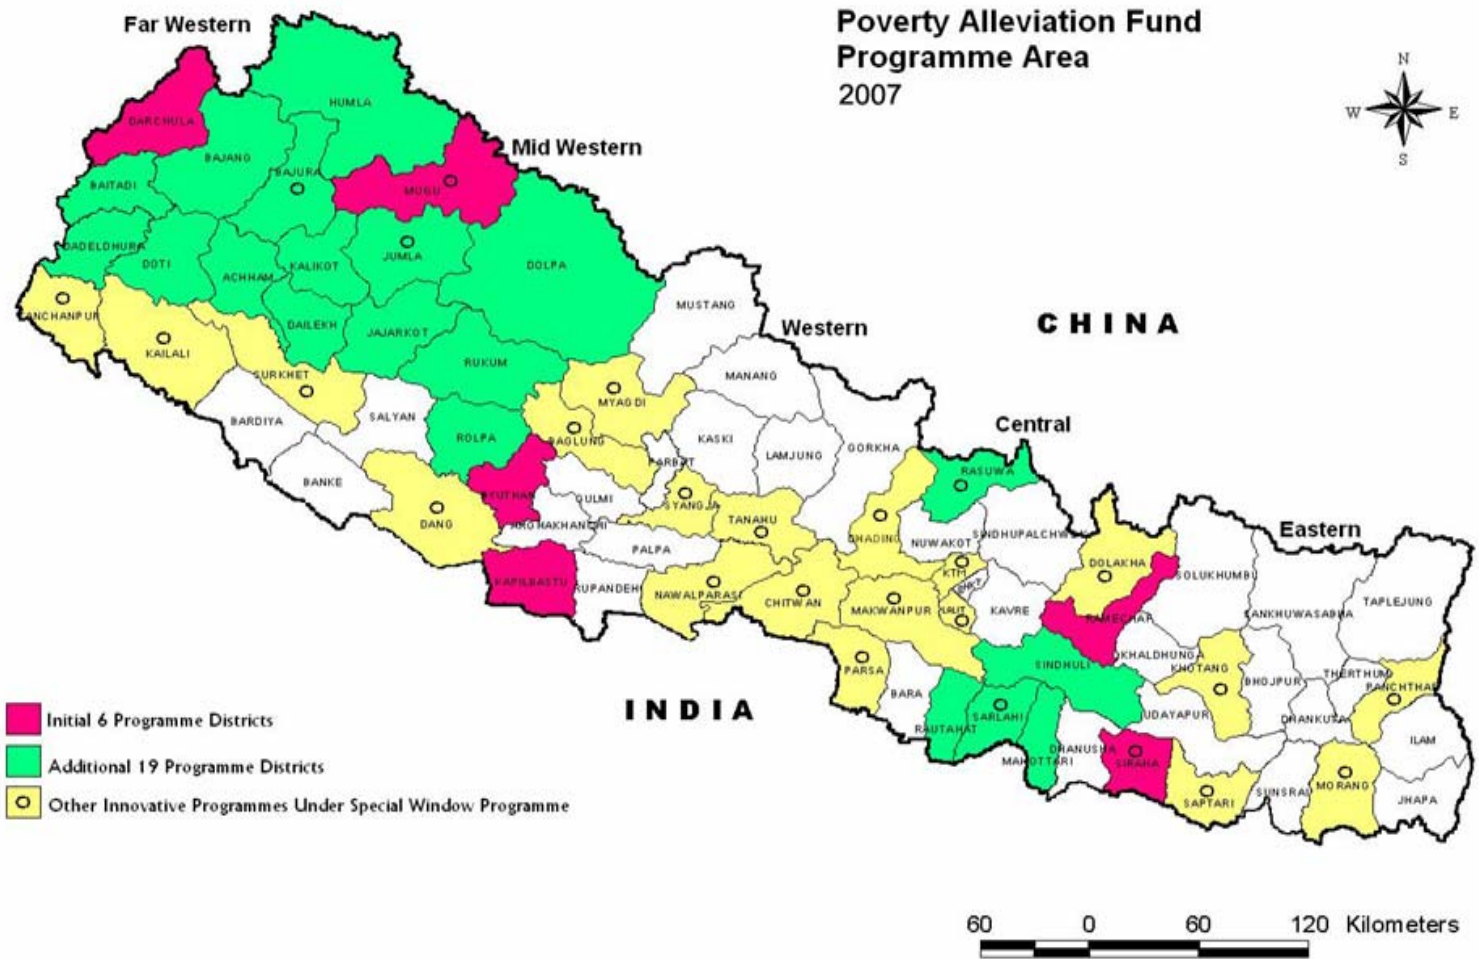

## Future Program District Coverage Plan

PAF has planned to cover all 75 districts in future. Program will be expanded in additional 15 districts in the Fiscal Year 2064/65 (2007/08) and additional 15 districts in FY 2065/66 (2008/09) from the list of deprived districts categorized by CBS/NPC based on 28 poverty related socio-economic indicators (Annex-IX). Remaining 20 districts will be covered through poverty pocket approach. The phasewise PAF program district coverage plan are shown in the map in Annex-X.
